

SPONSORSHIP OPPORTUNITIES

Joint Assembly is a unique platform for scientists and researchers to connect with their Canadian and U.S. colleagues in an intimate setting. With more than 2,000 attendees, the meeting covers the entire Earth and space science spectrum, but is small enough to allow for strong collaboration. In addition to a robust scientific program, attendees have the option to attend field trips, workshops, and short courses, covering a wide range of topics to spark scientific innovation and discussion.
